

DISH LIQUID 1 L.

OVERVIEW:

This highly concentrated liquid has a fresh citrus fragrance and contains aloe vera, alpha-hydroxy acid (AHA) and natural extracts of the shiso plant to protect hands from the rigours of washing up. Just one drop creates a profusion of bubbles that leaves dishes sparkling and super clean!

FEATURES:

DISH DROPS Concentrated Dishwashing Liquid cuts through grease and dried-on food, leaving dishes hygienically clean and residue-free
It is highly concentrated – now has more cleaning power with less product
It can be used safely on china, glassware, cooking pots and pans, cutlery and even lead crystal, fine silverware and porcelain
Use it as a pre-soak for heavy grease or baked-on deposits
It's gentle on skin
The liquid works in cold water to help conserve energy
DISH DROPS Dishwashing Liquid contains no phosphates, harsh acids/alkalis or chlorine bleach
84% of the active ingredients are derived from natural sources
Better pH stability helps to control odours from kitchen sponges, cloths and drains.

SUGGESTED USAGE:

It can be used safely on china, glassware, cooking pots and pans, cutlery and even lead crystal, fine silverware and porcelain.
For sink or bowl washing up, add 3 ml of DISH DROPS Concentrated Dishwashing Liquid to the bowl while filling with 5 litres of warm water. Rinse dishes after washing.
For economical application, dilute 1 part DISH DROPS Dishwashing Liquid with 3 parts water into an AMWAY™ Squeeze Bottle, swirl to mix, then use a small amount on a sponge.
To maintain sponges and dish cloths, rinse thoroughly with warm water. Add 2 squirts from the dispenser, pump on to the cloth or sponge, squeeze to distribute the liquid and leave until next use.
Please be aware:
Rinse your hands after use.

DISH TABLETS 60 ud.

OVERVIEW:

Effective dishwasher tablets in dissolvable wrappers. The improved soft water performance contributes to the reduction of the risk of glass etching. They work brilliantly even at 40°C for greater energy savings.

FEATURES:

DISH DROPS™ Automatic Dishwasher Tablets are an all-in-one formula. The tablets contain oxygen bleach, low temperature bleach activator, alkalinity agents, polymers, protease enzyme, amylase enzyme, salt and rinse aid.

Each tablet is a convenient single dose, wrapped in a water soluble polymer material.

The formula helps to prevent hard water filming and water spots.

The formula contributes to the reduction of the risk of glass etching in soft water conditions.

The tablets leave no messy clumps or detergent residue in the dishwasher.

SUGGESTED USAGE:

DISH DROPS™ Automatic Dishwasher Tablets can be used to clean and protect all dishwasher-safe items of glassware, utensils, dishes, pots and pans.

Place one tablet in the dishwasher soap dispenser with dry hands. No need to remove the wrapper as it is water soluble.

Please be aware:

Tablets are not for use on sterling silver, silver plate or unprotected aluminum.

In areas of hard water, add dishwasher salt and rinse aid regularly to the machine to maximize performance and prolong the life of the appliance.

GEL OVEN 500 ml.

OVERVIEW:

The unique gel formula, applied with the brush provided, clings to oven surfaces. It softens, lifts and dissolves grease and baked-on food, you simply wipe them away.

FEATURES:

Quickly softens, lifts and dissolves tough, baked-on food, grease and sugar-based stains

Non-abrasive, thick gel clings evenly to any surface, providing the necessary contact time to soften and lift thick, burned-on crust

Easy-to-apply. Does not need heavy scrubbing, scraping or scouring

Child resistant closure for added safety

INGREDIENTS:

Aqua, Sodium Hydroxide, Xanthan Gum, Sodium Tallowate, Sodium Cocoate, Magnesium Sulfate, Pareth 25-12

SUGGESTED USAGE:

Can be used on gas and electric enamel interiors, oven racks, barbecue, grill pans, broiler drip pans and rotisseries.

Shake well before using. (Be sure cap is on tightly before shaking).

Wear rubber or plastic gloves and suitable eye/face protection.

Remove oven racks and elements.

Place small bowl on bottom of oven interior. Pour in supply of oven cleaner.

Apply cleaner with brush to interior of oven, coating back first, then sides, bottom and top last.

Set racks back in oven and coat with cleaner.

Let stand 30 minutes. (Heavily soiled areas may need reapplication).

Wipe away jellied residue with sponge or cloth dipped in hot water.

Rinse with cloth dipped in a water-vinegar solution, working from top to bottom.

GREEN MEADOWS 150 ml.

OVERVIEWS:

A concentrated air freshener with NEUTRALODOR™ that neutralises and eliminates offensive household odours. The country fragrance of Green Meadows evokes a springtime meadow.

FEATURES:

Omits a delightful fragrance of GREEN MEADOWS. A quick spray is all you need to give your room the country-crisp fragrance of a springtime meadow
Contains NEUTRALODOR, a unique deodouriser ingredient that neutralises offensive household odours
Concentrated aerosol. One quick spray eliminates most household odours. No need to saturate the room with aerosol

INGREDIENTS:

Alcohol, Isobutane, Propane, Parfum, t-Butyl Alcohol, Brucine Sulfate

SUGGESTED USAGE:

Eliminates even strong aromas like fish, tobacco, smoke and cabbage. It is especially helpful for cleaning odours from smoke-filled rooms and musty closets. Concentrated, just one quick spray.

L.O.C. BATHROOM 500 ml.

OVERVIEW:

For gentle cleaning with no compromising on power, L.O.C.™ Bathroom Cleaner easily removes hard water stains and limescale without scratching. Your bathroom is left hygienically clean and shiny - no scrubbing required!

FEATURES

The concentrated formula dissolves soap scum with no scrubbing for an effortless shine

L.O.C.™ Bathroom Cleaner rinses away easily, leaving a streak-free surface

It contains citric acid derived from renewable sources

Each 500 ml bottle produces the equivalent of 4 spray bottles

It's safe to use on most washable bathroom surfaces including ceramic tiles and plastic.

INGREDIENTS

Aqua, Methoxyisopropanol, Citric Acid, C9-11 Alcohol Ethoxylate, Cocamidopropylamine Oxid, Parfum, Colourant

SUGGESTED USAGE

L.O.C.™ Bathroom Cleaner can be used on ceramic tiles, fibreglass, porcelain, stainless steel, plastics and vinyl.

Do not use on marble, natural stone or brass.

For general bathroom use, use the AMWAY™ Pistol Grip Sprayer Bottle and add 375 ml of water to the 3:1 line, topping up with bathroom cleaner to the 500 ml line. Spray surface and wipe or rinse off with a damp cloth.

For hard water deposits like limescale, use the solution 1:1. Spray and leave for several minutes before rinsing off.

When using L.O.C.™ Bathroom Cleaner with L.O.C.™ Wipes, add 3.5 capfuls of concentrate to water.

L.O.C. GLASS 500 ml.

OVERVIEW:

For a streak-free shine on all your glass surfaces and windows, you can't beat the fresh smell and clear blue cleaning power of L.O.C.™ Glass Cleaner. The natural ingredients work beautifully on mirrors, TVs and even computer screens (if made of glass). Used with L.O.C.™ Wipes the bottle can go even further.

FEATURES:

L.O.C.™ Glass Cleaner cuts through dirt and grime
It contains no phosphates, harsh acids/alkalis or chlorine bleach
The refreshing citrus fragrance contains essential oils
It contains natural cleaning ingredients derived from plants
It's economical – a 500 ml bottle produces the equivalent of four spray bottles (or 2 litres of ready to use product).

INGREDIENTS:

Aqua, Methoxyisopropanol, Propoxypropanol, Coco Glucoside, Parfum, Undeceth-9, Tetrasodium EDTA, Colourant

SUGGESTED USAGE:

L.O.C.™ Glass Cleaner is suitable for all glass and shiny surfaces including windows (inside and out), mirrors, windscreens, computer screens (as long as they are made of glass) and TVs, including LCD, plasma screens and flat screens (as long as they are made of glass).

Use the AMWAY™ Pistol Grip Sprayer Bottle and add 375 ml of water to the 3:1 line, topping up with Glass Cleaner to the 500 ml line

Spray surface and wipe dry – no need to rinse.

When using L.O.C.™ Glass Cleaner with L.O.C.™ Wipes, add 3.5 capfuls of concentrate to water.

L.O.C. KITCHEN 500 ml.

OVERVIEW:

With a powerful cleaning action that cuts through the toughest grease and grime effortlessly, L.O.C.™ Kitchen Cleaner leaves your kitchen hygienic and clean. The concentrated formula is real value for money – a 500 ml bottle produces the equivalent of 4 spray bottles.

FEATURES

L.O.C.™ Kitchen Cleaner de-greases surfaces and powers away even the toughest grime

The light citrus fragrance contains essential oils to leave your kitchen smelling fresh

It contains no phosphates, harsh acids/alkalis or chlorine bleach – so no harmful fumes

Our 'powerfully different' kitchen cleaner will deodorise and refresh your kitchen surfaces, leaving them hygienically clean.

INGREDIENTS

Aqua, Methoxyisopropanol, n-Butoxypropanol, Coco Glucoside, Sodium Laureth Sulfate, Sodium Carbonate, Parfum, Tetrasodium EDTA, C9-11 Alcohol Ethoxylate, Sodium Sesquicarbonate, Orange Oil, Colourant

SEGGESTED USAGE

L.O.C.™ Kitchen Cleaner is safe to use on all sealed, washable surfaces, such as worktops, cooker hobs, domestic appliances, sinks and fridges.

Using the AMWAY™ Pistol Grip Sprayer Bottle, add 375 ml of water to the 3:1 line, topping up with shower cleaner to the 500 ml line

Spray the surfaces and wipe dry

For extra tough grime, use the solution 1:1.

If you're using L.O.C.™ Kitchen Cleaner with L.O.C.™ Wipes, add 3.5 capfuls of concentrate to water.

L.O.C. MULTI-PURPOSE 1 L.

OVERVIEW:

L.O.C. Multi-Purpose Cleaner cuts through all types of dirt, soil build-up and grime and doesn't leave harsh residues.

What It Does For You

Cleans effectively, cutting through all kinds of dirt, soil build-up and grime and leaving a streak-free, shiny finish, meaning you don't have to rinse.

Leaves your home feeling clean, naturally fresh and safe, thanks to its naturally derived-yet-powerful cleaning ingredients.

Makes household cleaning easier, thanks to its multi-purpose formula and versatility.

Will leave no harmful residue because it contains no phosphates, harsh acids or chlorine bleach and is completely biodegradable.

DETAILS:

Key Features

Features a highly concentrated formula that uses naturally derived ingredient (e.g. coconut, oil and salt).

Suitable for all washable surfaces, including bathrooms and kitchens, walls, painted woodwork and other household items.

The clean, fresh fragrance contains essential oils.

Formula is entirely biodegradable and contains no phosphates, harsh acids or chlorine bleach.

HOW TO USE:

L.O.C. Multi-Purpose Cleaner can be used on baths, toilets, glazed tiles, sinks, showers and marble. It is also safe to use on cookers, counter tops, washable walls, doorknobs, telephones, waste bins and painted woodwork.

For general cleaning, add 30 ml of L.O.C. Multi-Purpose Cleaner to 5 litres of water in a bucket. Wash down the surfaces and dry as appropriate. No need to rinse!

For spray cleaning, use the AMWAY Pistol Grip Sprayer bottle and add 450 ml of water to the 9:1 line. Top up with Multi-Purpose Cleaner to the 500 ml line. Then just spray surfaces and wipe dry.

As a hand cleaner, use undiluted and rinse hands after use.

INGREDIENTS:

Water, Sodium Laureth Sulfate, C10-16 Alcohol Ethoxylate, Cocamidopropylamine Oxide, Sodium Chloride, Citric Acid, Fragrance, Methylchloroisothiazolinone, Methylisothiazolinone

SEE GLASS 500 ml.

OVERVIEW:

Leaves glass sparkling without smears or streaks. With ammonia and de-greasing agents, L.O.C. Plus SEE SPRAY Glass cleaner, with anti-fogging agent, cuts through grease and grime on glass, windows and mirrors.

FEATURES:

Recommended for cleaning most glass surfaces, chrome, car window interiors and porcelain

Leaves household surfaces sparkling clean without smears or streaks

Aerosol foam means it will not run or drip like liquid sprays

Contains a special anti-fogging ingredient that helps prevent fogging on glass windows and mirrors

Formulated with ammonia and a degreasing solvent to cut through grease and grime

Contains no chlorofluorocarbons which can contribute to the depletion of stratospheric ozone in the atmosphere

INGREDIENTS:

Aqua, Butoxyethanol, Isobutane, Methoxyisopropanol, Coco Glucoside, Ammonium Hydroxide, Propane, Dimethicone, Sodium Lauroyl Sarcosinate

SUGGESTED USAGE:

Leaves windows, mirrors and most glass surfaces sparkling, clear and shiny.

Effective on plastic, ceramic, porcelain and chrome surfaces.

Ideal for quick touch-ups between thorough cleanings.

TOILET BOWL 750 ml.

OVERVIEW:

Now more powerful against limescale, this dedicated toilet bowl cleaner removes germs and bacteria, eliminating odours and stubborn stains. Just a small amount applied regularly keeps toilets safe and clean. One bottle has enough cleaning power for 100 toilets!

FEATURES

L.O.C.™ Toilet Bowl Cleaner is guaranteed to remove limescale and other dirt. Effective surfactants and organic acids power away stubborn stains to deliver excellent cleaning performance.

It carries on working below the water line to remove hard water mineral stains and deposits and limescale.

We've used biodegradable ingredients and natural plant-derived acids to create a phosphate and chlorine-free toilet cleaner.

The fresh scent, with NEUTRALODOR™ deodorising, helps eliminate unpleasant odours.

It is perfectly safe for septic tanks and all plumbing systems.

INGREDIENTS:

Aqua, Lactic Acid, Acrylic Copolymer, Pareth 25-12, Parfum, Colourant

SUGGESTED USAGE:

L.O.C.™ Toilet Bowl Cleaner hygienically cleans toilets and prevents the build-up of limescale and other hard water deposits.

Direct the product under the rim of the toilet and evenly around the bowl.

Allow it to work for 30 minutes and then flush to clean.

For heavier limescale, allow the cleaner to work overnight and use a brush if necessary. Use every other day for best results.

Please be aware:

Replace cap after use.

Do not mix L.O.C.™ Toilet Bowl Cleaner with other chemicals.

WAX FURNITURE 400 ml.

OVERVIEW:

Take care of wooden furniture in one easy step with this special blend of wax and protects. Containing an anti-static agent, this rich, creamy, non-drip formula provides a splendid satin finish and leaves a fresh, clean lemon scent.

FEATURES:

A concentrated creamy aerosol spray made with a special blend of wax and silicones that polishes, cleans and protects fine finished wood furniture in one easy step

Rich, creamy formula leaves a satin finish, returns a natural lustre to dull, dry wood, minor nicks and scratches and resists moisture. Does not leave behind a powdery film, oily residue or sticky build-up

Contains anti-static agents that work to reduce static build-up on surfaces

Fresh lemon scent leaves your room smelling fresh and clean

Slimline 400 ml aerosol can fits comfortably in the han

INGREDIENTS:

Aqua, C10-12 Alkane/Cycloalkane, Butane, Isobutane, Propane, C8-9 Isoalkane, Sorbitan Oleate, Dimethicone Parfum, Cera Alba, Cera Carnauba, Montan Acid Wax, Cocamidopropyl Betaine

SUGGESTED USAGE:

Use AMWAY Wax Furniture Polish for regular dustings of furniture and decor. Effective on finished wood, plastic, ceramic and porcelain.

ZOOM 1 L.

OVERVIEW:

A concentrated, multi-purpose spot cleaner, effective at removing stubborn household stains. The fast-acting formula dissolves greasy, oily, grimy, messy stains from most washable hard surfaces. Simply mix with water in our AMWAY™ Pistol Grip Sprayer, spray and wipe!

FEATURES:

- Multi-purpose cleaner that attacks tough-to-remove spots on a wide range of washable surfaces
- Powerful formula of solvents and surfactants cuts through greasy dirt
- Concentrated formula can be custom diluted, depending on difficulty of cleaning job
- No rinsing required – just spray and wipe

INGREDIENTS:

Aqua, n-Butoxypropanol, Sodium Laureth Sulfate, Coco-Clucoside, Methoxyisopropanol, Sodium Carbonate, Sodium Sesquicarbonate, Tetra Sodium EDTA, Colourant

SUGGESTED USAGE:

Spot cleaning – an effective, fast acting cleaner for the removal of tough stains on surfaces such as cookers, tools, barbecues, garden furniture, worktops, appliances and sealed woodwork. Grease cutting solvents remove tar, oil, lipstick, pencil crayon, smoke stains and fingerprints.

Safe to use on all washable surfaces.

For normal cleaning – Dilute at a 1:2 ratio

Tackle stubborn spots – Dilute at 1:1 ratio
